Ayush Sharma

Software Engineer

I am now embarking on my career as a software Engineer, dedicated to building high-quality software solutions that meet the evolving needs of users. My goal is to write clean, maintainable code while continuously improving software performance and functionality. I enjoy collaborating with diverse teams to innovate and solve complex problems through technology.

Work experience & Projects

SeaGuardian GitHub

Dec 2023 - Feb 2024

- Secured selection of innovative project for the GDSC Solution Challenge Regional Bootcamp in India.
- SeaGuardian is a platform designed to tackle marine pollution by enabling users to report and track environmental incidents in real time.
- **Tech used HTML, CSS, Node.js, Express.js,MongoDB**
- Highlighting its potential to impact 100+ users and addressing key community need effectively.
- I lead the team for this project and work as a backend developer.

ViQuiz, Visual Quiz Game GitHub

Sep2023 – Dec2023

- As a Front-End Developer, I led the implementation of a dynamic web interface using **HTML, CSS, and JavaScript.**
- ViQuiz is an innovative online quiz platform that uses Python and OpenCV to enable virtual participation through visual-based interactions.

WordWell GitHub Live

Dec2023

- WordWell, a dictionary platform developed as a solo project.I skillfully integrated **HTML, CSS,** and **JS** to create a seamless user interface.
- I also handled the backend development, using an **external API** for dictionary data to provide full functionality and a great user experience.

BookShelf Publication GitHub Live

Dec2023-Jan2024

- BookShelf Publications is a secure web application hosting an extensive library on subjects like computer science, electrical engineering, and electronics.
- Developed using HTML, CSS, and JS for the frontend, it utilizes Node.js, Express for the backend, and MongoDB for database management.

Education & Learning

Bachelors of Technology in Computer Science and Engineering

Pranveer Singh Institute Of Technology, Kanpur,
CGPA-8.7 2022-Current

Intermediate

Morning Star Children's Academy, Orai,
Percentage-91% 2021

High-School

Morning Star Children's Academy, Orai,
Percentage-91% 2019

AWS Cloud Practitioner

Udemy.com, online course by Udemy,

Linux

Udemy.com, online course by Udemy,

Figma-UI Designing

Udemy.com, online course by Udemy,

Certificates

Skills

MERN-MongoDB, React.js, Node.js, Express.js, HTML, CSS.
Experienced with Firebase, Amazon Web Services, Ubuntu Linux.
Tools-Figma, AWS
Coding Language- c++,Python

Language - English, Hindi

NCC CADET, UP55BN NCC, Kanpur

Jan2023 – Current
